

Group Reading Assessment and Diagnostic Evaluation (GRADE)

The Group Reading Assessment and Diagnostic Evaluation (GRADE) offers tools to assess students' reading abilities, diagnose areas for improvement, plan instruction and intervention to meet students' specific needs, and evaluate their progress. In addition, GRADE can be used to address special needs of Response to Intervention (RTI) students. GRADE also assesses four out of five Early Reading elements (vocabulary, phonemic awareness, phonics, and comprehension). ARC provides scoring and reporting services for Missouri school districts for all forms of GRADE.

As students learn to read, they progress through a series of benchmarks, each representing different kinds of learning tasks. Each GRADE subtest allows educators to assess student progress in achieving these benchmarks and to develop more effective instruction.

With GRADE's rich assessment data, educators can determine placement of students, analyze strengths and weaknesses, plan instruction, monitor growth from grade to grade, help with post-secondary educational planning, and more. Using GRADE to guide instruction will help to ensure student success and deliver Adequate Yearly Progress (AYP) gains.

Features:

- Offers easy, flexible assessment options in just one 45- to 90-minute session or in shorter, multiple sessions.
- Helps structure classroom intervention with timely, correlated, reproducible intervention activities and exercises.
- Allows teachers to measure and track student progress from semester to semester and year to year with Growth Scale Value indicators.
- Addresses special needs of RTI students.
