

Gates-MacGinitie Reading Tests (GMRT), Fourth Edition

The Gates-MacGinitie Reading Tests (GMRT), produced by the Riverside Publishing Company, are useful for teachers assessing the general level of individual reading achievement. The tests are available in Grades 1–12 and a post-high-school adult level. They can be administered at any time during the school year. The objective information obtained from the GMRT, complemented by teachers’ evaluations and other sources of information, can be the basis for:

- organizing students into appropriate instructional groups
- selecting students for individual diagnosis and special instruction
- identifying students who are ready for more advanced instruction
- placing new students into proper instructional programs
- evaluating the effectiveness of instructional programs
- reporting student progress to parents, teachers, and the community

National norms are available for all times of year.
