INSTRUCTION SCRIPT - PLEASE READ TO STUDENTS: After reading these instructions to your class, please leave the room so that the evaluations can be completed without influence.

I am going to pass out an evaluation form to give you the opportunity to rate many aspects of this course and to make suggestions. Please use a pencil to complete the form. Your participation is voluntary. Your honest feedback is helpful. I will receive a report of the cumulative results and a copy of the comments. I will not see any results until after final grades have been submitted.

I have asked _____ to collect and deliver the completed forms. I will leave the room while the forms are being completed and collected. Please do not discuss the evaluation while you are completing the form. Thank you for taking the time to answer thoughtfully.
